The captioned patent application became abandoned on April 27, 1992.

This petition is filed within one year of the date of abandonment.

The application became abandoned unintentionally.

A copy of a file wrapper continuation request filed under 37 CFR § 1.62, Serial
No. 07/928,540, accorded a filing date of August 13, 1992 is enclosed. The file wrapper

continuation is believed to fulfill the requirements under 37 CFR § 1.137(b)(2) so that it is not necessary to also file a proposed response to the final Office Action lodged in the parent application.

The application status is that of a small entity, for which a verified statement has been previously filed.

The petition fee as required under 37 CFR § 1.137(b)(3) and as set forth under 37 CFR § 1.17(m) is included with this petition in the sum of \$585.00.

The fee for filing a file wrapper continuation was paid at the time the file wrapper continuation request was filed.

Should the appropriate petition fee be inadvertently omitted or the continuation application fee not been previously paid or deducted from the deposit account, please deduct such fee from Arnold, White & Durkee Deposit Account No. 01-2508\TAMK112\MCS.

A duplicate copy of this petition is attached.

R E M A R K S

Abandonment of this application was unintentional. In early June 1992, I received instructions from the assignee to abandon the parent application and to file a continuation-in-part application. I filed an Express Abandonment of the parent application on August 13, 1992 at the same time with a request for a file wrapper continuation as a divisional application. I filed the continuation application request in order to maintain the filing date of the parent application

and to move forward with the examination of the nonelected inventions, in accordance with the intention of the assignee and the inventors. Due to a clerical error, I was not aware that the parent had become abandoned on April 27, 1992 and that the final nonextensible deadline of July 27, 1992 had passed.

It is respectfully requested that this petition for revival of the unintentionally abandoned patent application Serial No. 07/344,258 be granted.

Upon granting revival of the unintentionally abandoned patent application, it is requested that the revived application Serial No. 07/344,258 be abandoned, effective August 13, 1992, in favor of file wrapper continuation patent application Serial No. 07/928,540 having a filing date of August 13, 1992.

Respectfully submitted,

C. Steven McDaniel
